

BT6441 – T100

T Series

BH

Upgraded electric inclination system

BH Exclusive manual inclination is varied by a triangle pivot. Depending on the training you want to achieve this incline can be adjusted in 3 different levels. Every user will experience the perfect workout to their preferences.

MP3 & Dual speakers

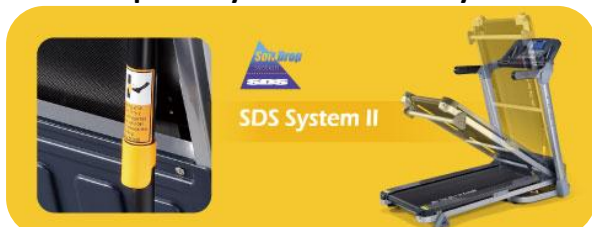

Compatible with MP3 player through a line-in connection, T100 treadmill offers you the most enjoyable sport experience

Anti-slip side footrests

The anti-slip footrests on bilateral sides enable a comfortable and safe workout

New foot pedal cylinders for SDS system

The all new foot pedal cylinders can effectively process safety and prevent back injuries when dropping the running board. Keep the running board to descend at a slow speed by stepping on the yellow part on the cylinder.

BH Multi-Cushion

With highly protection of knees and ankles, users can workout safely! Beside the basic shock absorbing balls, T100 equipped with BH Unique Cushions, which absorb the shock efficiently while running.

Arc-shape stand post

Compare to the treadmills with the same level, T100 owns the widest stand posts. With the beautiful arc shape, the stand posts make the whole structure firmer and safer.

BH Green Efficient Motor

The professional design of T100 treadmill motor is in accordance with EU regulation. And it is equipped with best brush, bearing, and steel axle that make the motor reliable in high speed.

The No **1** in Europe | Since 1909

Fingertip controls

The convenient fingertip resistance and speed control buttons allow for quick adjustments, and the handlebar with leather-like texture shows the luxurious and delicate quality.

Quick-key controls

Quick speed keys allow fast adjustments while workout. Users can recognize easily by the different vivid colors.

Intensified protecting back cover

The protecting back cover of the running board, accordance with the standards of EN957, can effectively protect the roller and prevent the running belt from friction.

The multi-functional stuff holder

The holders offer space for putting your bottles or mobile phone on the machines.

Contact pulse measurement system

The convenient design of contact pulse measurement system allows users to easily and comfortably control the exercise progress.
